

Did you know that since its inception TCSF has contributed over \$1 million to our city schools?

TCSF is a 501(c)(3) nonprofit raising funds and awareness for our three elementary schools, middle school and high school. All donations raised assist us in funding supplies and programs – beyond the minimum requirements set by the state – required by our parents and educators to support the development of our students and schools. We continue to partner with families, corporate sponsors and host fundraising events to address some of these needs, including braille books, the environmental education center, updated exercise equipment, sensory room materials, and more.

We hope you will consider supporting us and Join the Pack today as we continue our mission of service to Trussville City Schools. To Join the Pack we ask families to donate \$1 per school day, or \$180 total.
